

Get AWS Certified
and advance your career

Train with Edify Phil. IT Training, Inc.

AWS Training and Certification

Training and Certification helps advance your knowledge with practical skills so you can get more out of the cloud

instructional videos

self-paced labs

instructor-led classes

certifications

Get started with instructional videos and labs

Our “Introduction to AWS” series can help you ramp up and learn the basics of popular AWS services.

1. Watch a short video to gain foundational knowledge.
2. Take a corresponding intro lab to get hands-on practice.

aws.amazon.com/training/intro_series

Take a self-paced lab to get hands-on practice

Practice in a live AWS environment with AWS services and real-world cloud scenarios. Two ways to learn:

1. **Take an Individual Lab:** Choose from more than 120 lab topics including over 35 introductory topics.
2. **Follow a Learning Quest:** Take a sequence of related labs to earn a badge.

Labs are available from APN Technology Partner qwikLABS individually or through a subscription.

Why choose an AWS Authorised Training Partner?

Training is only as good as the trainers. AWS Authorised Training Partners get their knowledge directly from AWS, so they always have the most up-to-date information and insights on the latest systems.

Learn from the experts

Courses run by Authorised Training Partners are led by accredited technical instructors from AWS who can help you acquire the knowledge and skills you need to succeed on AWS. These dedicated professionals can help guide you to certification with their experience and technical proficiency on AWS.

Keep your cloud skills fresh

AWS releases hundreds of new features and updates each year. Course material is continuously evaluated and refreshed to reflect the latest AWS services and best practices.

Choosing an AWS Authorised Training Partner gives you confidence that you're gaining all the most current skills needed to design, deploy, and operate infrastructure and applications on the AWS cloud.

Get certified to validate your knowledge

Associate and Professional Certifications validate knowledge at two different skill levels.

aws.amazon.com/certification

 Architecting	aws CERTIFIED Solutions Architect - Associate	aws CERTIFIED Solutions Architect - Professional
	aws CERTIFIED Developer - Associate	aws CERTIFIED Developer - Professional
 Developing	aws CERTIFIED SysOps Administrator - Associate	aws CERTIFIED DevOps Engineer - Professional
	aws CERTIFIED SysOps Administrator - Professional	aws CERTIFIED DevOps Engineer - Associate
 Operations	aws CERTIFIED SysOps Administrator - Associate	aws CERTIFIED DevOps Engineer - Professional
	aws CERTIFIED SysOps Administrator - Professional	aws CERTIFIED DevOps Engineer - Associate

Edify

As an AWS Authorized Training Partner for the Philippines, Edify is a market leader in AWS Training and Certification in the region.

Experience, reliability, and insightfulness are the core pillars that drive the Edify team in providing the highest quality training experience to their clients from any of their 10 locations in the region.

The most up-to-date AWS training

With hundreds of new features and services released on AWS each year, Edify works closely with AWS to ensure that their course content is right up-to-date and aligned with all the newest features and services available.

Hands-on, immersive environment

By providing immersion via the hands-on

practical exercises as based on current, updated, and authentic AWS Laboratories, Edify training courses help participants not only gain first hand proficiency with AWS, but also gives them the confidence to achieve success in their certification exams and earn their globally recognised and respected AWS Certifications.

Highly-qualified and certified AWS instructors

Edify uses qualified and experienced AWS staff to deliver training. These experienced, Certified instructors have come through a stringent, minimum six month selection process which ensures the quality of our training delivery.
