Course Description

Learn how to use NetApp® OnCommand® Unified Manager to centralize the deployment, automation, protection, and monitoring of your storage. Unified Manager can effectively and cost-efficiently monitor and manage physical, virtual, and shared storage infrastructures. Unified Manager enables you to optimize utilization, satisfy service-level agreements (SLAs), minimize risk, and increase performance.

Audience

NetApp Professional Services, Partners and Customers.

Prerequisites

- Storage Fundamentals
- Technical Overview of NetApp OnCommand Unified Manager
- Installing and Configuring NetApp OnCommand Unified Management Solution

Objectives

By the end of this course, you should be able to:

- Monitor, manage, and analyze physical and virtual storage infrastructures
- Provision storage and perform policybased backups
- Automate storage provisioning and protection
- Administer security to enable business policy compliance
- Use Performance Advisor to monitor performance
